House Appropriations Request FY 2011

Project Name: Consortium for Plant Biotechnology Research
Recipient: The Consortium for Plant Biotechnology Research, Inc.
Recipient Address: 100 Sylvan Drive, Suite 210

Recipient City: Saint Simmons Island
Recipient State: GA
Recipient Zip: 31522

Amount of Request: \$1,000,000

Explanation of the request (must include purpose and why it is a valuable use of taxpayer funds):

The Consortium for Plant Biotechnology Research supports biotechnology research, in areas such as renewable energy and environmental research, that can translate into market-ready products and new technologies. CPBR promotes the rapid development and transfer of these technologies from academic laboratories to the marketplace.

CPBR will help build the agricultural and renewable energy industries and the workforce of the future that will reduce US dependence on foreign oil and create new, good jobs in North Carolina and the nation. North Carolina State University is one of CPBR's member universities.

In order to offer more opportunity for public scrutiny, I have posted information on each project request submitted to the Appropriations Committee at the time the request was made.
